

Warsaw, 11 February 2013

Recommendation letter

We started cooperation with Staffer Sp. z o.o. in November 2011.

From the beginning the communication has been very good. The way of working, planning and training their employees makes them unique. They have been closely involved with the hotel to monitor our needs and take into consideration our suggestions. They have definitely differentiated themselves from other companies.

Therefore, we are confident in recommending Staffer Sp. z o.o. to any organization seeking higher quality service staff.
